About the Map Numbering System!

Other areas covered by the METRO Street Atlas Series are gray.

Franklin Maps has developed a master numbering system for Pennsylvania.

With this system, all sheet maps, atlases, and multi-county products have consistent map numbers and grid systems.

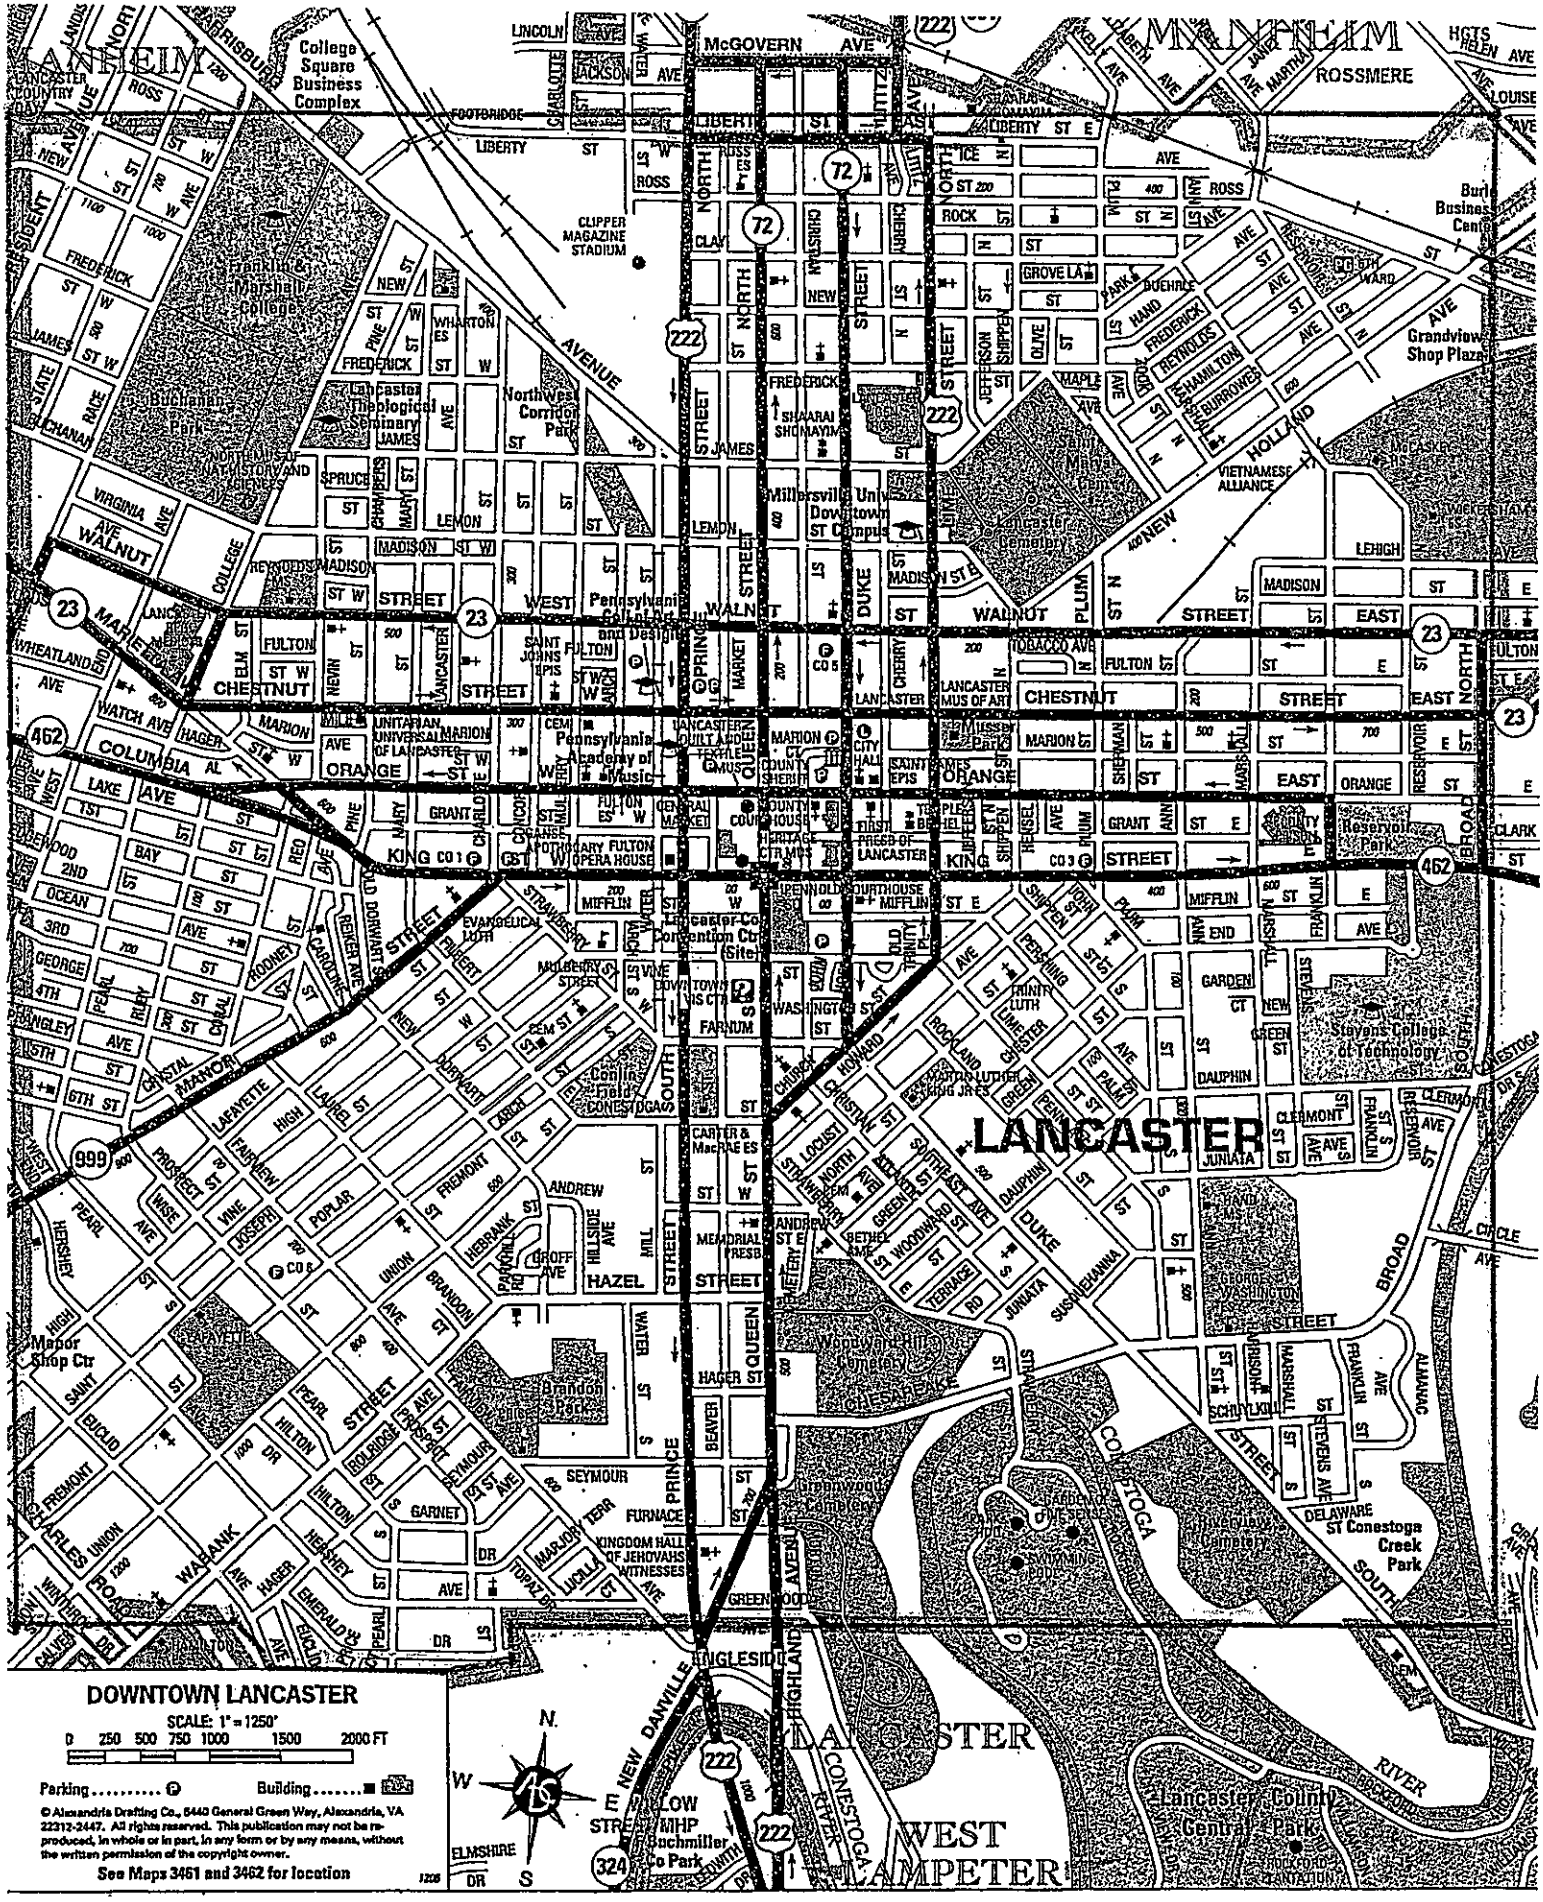

As a consequence, the map numbers in this atlas do not start at map 1, and are not consecutive. Page numbers are located on the bottom outside edges of the pages, and run consecutively.

! MOTORISTS NOTE !

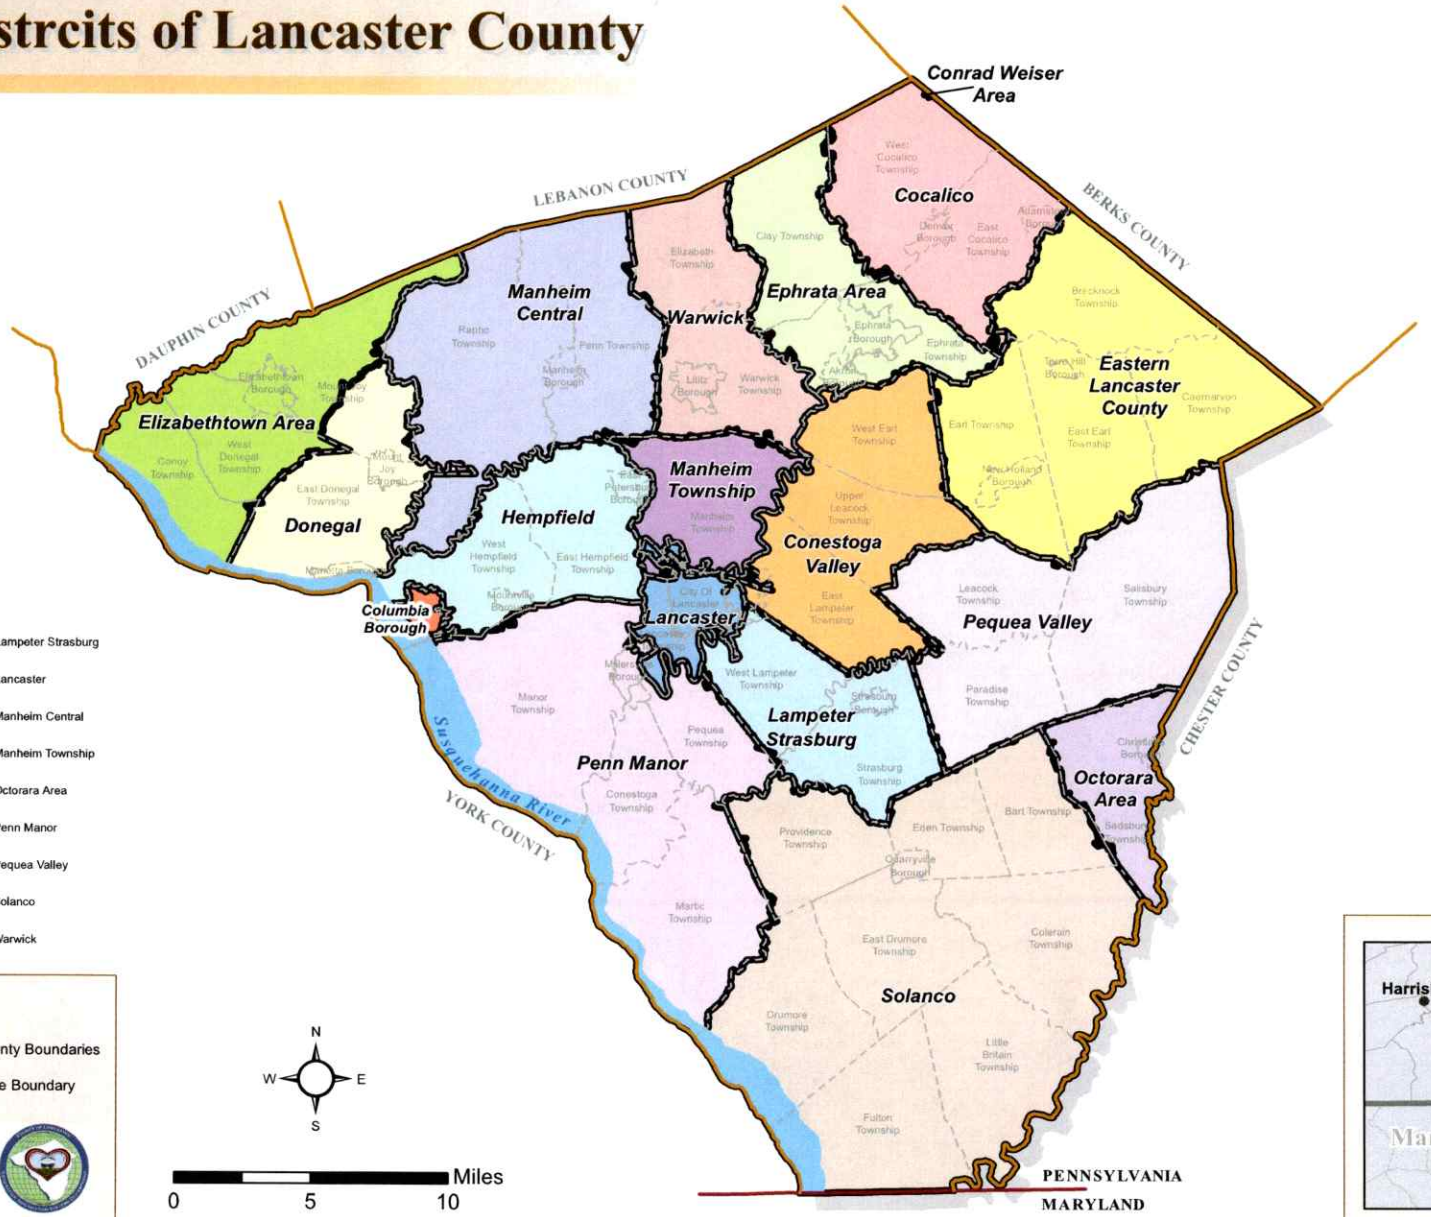

PennDOT will adopt the new mileage-based exit system beginning in APRIL 2001.

All signs will include both the old and new exit numbers for a period of at least two years. This will enable motorists to become familiar with the mileage-based system. Numbering will increase from south to north, and from west to east. This atlas contains only the new numbers.

Laminated wall maps of Lancaster County, using the same grid key system as this atlas are available directly from Franklin Maps.
